

This architectural drawing shows the front elevation of a two-story house. The house features a gabled roof with a central dormer containing a four-pane window. The main body of the house has a large, plain rectangular facade. On the second floor, there are two tall, narrow windows with decorative lintels and sills. On the first floor, there is a central entrance door with a transom and a small porch with steps leading up to it. To the right of the entrance, there is another tall, narrow window. On the far right, there is a small, covered porch area with a railing. The drawing is a line art illustration with no shading.

This architectural elevation drawing shows a symmetrical two-story building facade. The structure features a prominent triangular pediment at the top, which contains a small, square, four-paned window. Below the pediment, the main body of the building is divided into two horizontal levels. Each level contains two tall, narrow, double-hung windows with decorative lintels and sills. The building is flanked by a small, square chimney on the left and a smaller, rectangular chimney on the right. A small, square, four-paned window is also visible on the right side of the facade. The drawing is a black and white line art, showing the structural details of the building.
